Dear Mr. Geist:

This letter is in partial response to your October 11, 2017, request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, as amended. Your request was received on October 12, 2017, and assigned FOIA Case number 2018-APHIS-00286-F. You requested the following items concerning the U.S. Department of Agriculture, Animal and Plant Health Inspection Service's (APHIS) study Evaluation of GonaCon:

1. All publications, studies, reports, memos, and communications (emails, faxes, letters).
2. All animal welfare monitoring, including inspections, reports, evaluations, appointment books, and notes related to injury, abandonment, and death of bison.
3. Bison abortions and birth.
4. Removal and disposition of genetic material from bison.
5. Number and status of bison, held for study, incinerated, landfill buried, distributed to food banks and other activities resulting in removal.

On or about October 13, 2017, your request was forwarded to the APHIS, Office of Veterinary Services (VS) and the pertinent employees commenced a search for records starting on October 20, 2017. The search for records is ongoing, and APHIS intends to also undertake a centralized email search for additional employees who may have responsive records. We are continuing to review responsive records that have already been provided to us by VS and intend to continue to provide additional partial responses and produce these records to you on a rolling basis.

Approximately 613 pages are being released in response to Items 1 through 5, and of the 613 pages, 575 page are being released in full and 38 pages contain redactions pursuant to Exemption 6, 5 U.S.C. §552 (b) (6). The chart enclosed shows the bates number for exemptions applied to records in this second interim response.

Safeguarding American Agriculture
APHIS is an agency of USDA's Marketing and Regulatory Programs

An Equal Opportunity Provider and Employer

Exemption 6

Information has been withheld under Exemption 6, 5 U.S.C. 552 (b)(6). Exemption 6, permits the government to withhold from “personnel and medical files and similar files” information about individuals when the disclosure of such information “would constitute a clearly unwarranted invasion of personal privacy.” We have determined that these records meet the definition of “similar” files, because they contain information pertaining to individuals.

In order to determine whether a document may be withheld under Exemption 6, an agency must undertake a three-step analysis. First, the agency must determine whether a significant privacy interest would be compromised by the disclosure of the record. Second, the agency must determine whether the release of the document would further the public interest by shedding light on the operations and activities of the Government. Third, the agency must balance the identified privacy interests against the public interest in disclosure.

APHIS is withholding the personal home addresses and telephone number of APHIS employees and the personal email address of a person who corresponded with APHIS employees. Release of this type of information could subject them to unwanted personal contact. We have determined that there is no public interest in releasing the identified personal information about APHIS employees and correspondents. Please note that we have released the names of employees involved in the VS mission work. Releasing personal contact information would not reveal anything about government activities and therefore the privacy interests of the individuals outweighs the nonexistent public interest.

Please note as described below and on the enclosed listing that a total of 89 pages were removed for consultation with another federal agency, non-responsive, and pending further review:

1. Bates numbers 000885-000886; 000979-000982; 001049; 001063-001076; 001078-001081; 001083; 001085; 001087; 001089; 001091-001092; 001094-001095; 001097; 001108; 001109; 001111-001112; 001114; 001116; 001118; 001136; 001141-001146; 001200-001201; 001210; 001212; 001221-001222; 001224; 001229-001230; 001232-001233; 001235; and 001237 were removed from this partial for further review.
2. Bates Numbers 000889-000896 and 001354-001355 were removed from this partial as non-responsive and documents part of a different research study.
3. Bates numbers 000965-000974 and 001054-001062 were removed from this partial because the records need to be sent to the Department of Interior for consultation.
