Freedom of
Information

Dear Mr. Geist:

4700 River Road
Unit 50
Riverdale, MD
20737-1232

This letter is a 9th partial response to your October 11, 2017, request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, as amended. Your request was received on October 12, 2017, and assigned FOIA Case number 2018-APHIS-00286-F. You requested the following items concerning the U.S. Department of Agriculture, Animal and Plant Health Inspection Service's (APHIS) study Evaluation of GonaCon:

1. All publications, studies, reports, memos, and communications (emails, faxes, letters).
2. All animal welfare monitoring, including inspections, reports, evaluations, appointment books, and notes related to injury, abandonment, and death of bison.
3. Bison abortions and birth.
4. Removal and disposition of genetic material from bison.
5. Number and status of bison, held for study, incinerated, landfill buried, distributed to food banks and other activities resulting in removal.

On or about October 13, 2017, your request was forwarded to the APHIS, Office of Veterinary Services (VS) and the pertinent employees commenced a search for records starting on October 20, 2017. We are continuing to review responsive records that have already been provided to us by VS and intend to continue to provide additional partial responses and produce these records to you on a rolling basis.

Enclosed are pages responsive to Items 1-5 of your request. This response consists of 2090 pages of records. This response also consists of the remaining 176 pages of records that were removed from our 8th partial response, dated February 28, 2019. Please note, no further records are outstanding as it relates to the 8th partial. Of the 2266 pages, 2037 pages are being released in full and 229 pages contain redactions pursuant to Exemption 6, 5 U.S.C. §552 (b) (6). The charts enclosed shows the bates number for exemptions applied to records in this 9th response as well as the additional records from the 8th interim response.

Exemption 6

Information has been withheld under Exemption 6, 5 U.S.C. 552 (b)(6). Exemption 6, permits the government to withhold from “personnel and medical files and similar files” information about individuals when the disclosure of such information “would constitute a clearly unwarranted invasion of personal privacy.” We have determined that these records meet the definition of “similar” files, because they contain information pertaining to individuals.

In order to determine whether a document may be withheld under Exemption 6, an agency must undertake a three-step analysis. First, the agency must determine whether a significant privacy interest would be compromised by the disclosure of the record. Second, the agency must determine whether the release of the document would further the public interest by shedding light on the operations and activities of the Government. Third, the agency must balance the identified privacy interests against the public interest in disclosure.

APHIS is withholding the personal home addresses and personal email address of individuals who corresponded with APHIS employees. In addition, names of private individuals, and private cell phone numbers. Release of this type of information could subject them to unwanted personal contact. We have determined that there is no public interest in releasing the identified personal information about APHIS employees and correspondents. Please note that we have released the names of employees involved in the VS mission work. Releasing personal contact information would not reveal anything about government activities and therefore the privacy interests of the individuals outweighs the nonexistent public interest.

We note that this FOIA request is currently the subject of litigation, *Buffalo Field Campaign v. APHIS*, Case No. 9:18-cv-00031-DC. Accordingly, any inquiries regarding this matter should be directed to Assistant United States Attorney Mark Smith, U.S. Attorney’s Office for the District of Montana, on (406) 247-4667.

Sincerely,

A handwritten signature in black ink that reads "Tonya H. Woods". The signature is written in a cursive style with a large, stylized 'T' and 'W'.
