Comments:

I support Alternative E. We have already have enough wilderness areas that majority of people NEVER use. The same people would like to create more wilderness areas. We need to leave public land open to motorized vehicles so everyone can enjoy what this beautiful state has to offer. It shouldn't only be available to the physically fit people and people who own horses. It's public land and should have plenty of area open for ALL of the public. Not only that but closing down these areas to motor vehicles will dramatically effect the many businesses around each area that make a living from supporting these types of hobbies/ lifestyles.
