Comments:

It is my feeling that wilderness areas are too restrictive. Limiting access and user groups is not montana. People need to learn to share. I love snowmobiling, ski touring, paragliding, hiking, dirt biking, etc. Making wilderness areas just limit what activities I can do in there and for that reason I am against it. Let montanans enjoy our mountains the way we always have. Wilderness areas are not better for all user groups, only hikers. I believe it is good for all people to enjoy nature, young and old. Improving access should be our goal, not restricting it.
