Forest Plan Revision Team

PO Box 130

Bozeman, MT 59718

Dear Revision Team,

As long time visitors and paying tourists, we urge that you adopt management plans for the Absaroka Beartooth and Madison, Henry's Lake and Gallatin areas. They are very import to wildlife and the diverse ecosystem that is Yellowstone.

Every visit to the area shows more and more visitors, ranches gone and multi homes replacing that open space.

We support those organizations like Greater Yellowstone which urge you to do the right thing. Once gone, this special place will not come back.

Wildlife must have safe access from all areas; grizzlies need space and we support designating them a Species of Conservation Concern.

Take the help and recommendations seriously. We all who support wild lands and animals have nothing to gain except the knowledge that even if we never visit some of this area, it is there...a safe home for the magnificent wildlife of the Yellowstone area.

Thank you,

Edward and Beatrice Simpson

Respectfully,

Mr. Edward and Beatrice Simpson
