Comments:

I am writing again to voice my concern over the potential restriction of mechanized travel in many areas of our beautiful state. My bicycle is my tool. It allows me to travel farther and accomplish more than I could on foot. I care about our backcountry, National Forests, and Wilderness. I volunteer my time to maintain and improve trail systems for all users. I truly believe the benefits of allowing bicyclists on our trail systems far outweighs the negatives. However, I also believe in compromise and will support the Gallatin Forest Partnership agreement. Please don't take my tool away from me. Help me to continue to help you.
