Dear Custer Gallatin National Forest:

I am writing this to express my support for some of the alternatives during the CGNF revision plan. I support the Gallatin Forest Partnership Agreement to ensure north-south connectivity and protect grizzly bear habitat. Additionally, Alternative D is crucial for the Pryor Mountains as those mountains have cultural significance as well as unique plants and animals worthy of protection. The character of the area would be sadly & irreversibly destroyed with unregulated motorized use. The Ashland ranger District is a very important area with tribal history and significance and the Tongue River Breaks, King mountain, & Cook Mountain deserve protection as Wilderness so this unique area of peace and solitude can be enjoyed by generations to come.
