Comments:

With family in Missoula, Montana we often travel from Florida to visit. We have explored so many wilderness areas in the region and the experience is always magical! One visit involved accompanying a ranger in Yellowstone to track wolf packs to observe their nightly feeding explorations with their young pups. This was shortly after their re-introduction into Yellowstone. It was an experience we will never forget and their howls and "yips" are still ingrained in our memories. Please do not alter these wilderness areas so that generations to come can share in their magic!

Thank you!

Debra Cosentino
