Comments:

thank you for reading the thoughts of a nature loving visitor to this amazing area.

We must be wary of opening up this fragile, vital area to too much "development", such as allowing motorized vehicles and hoards of tourists a too easy access to this area.

We must protect the unique flora and fauna this area hosts knowing that this might be the LAST safe haven these creatures and plant life has in our paved over world.

NO excavating, fracking, mining, pipelines etc should be allowed to disturb, upset and bulldoze into these pristine areas.

Alternative D of the draft forest plan would offer the best protection for the Gallatin Range and other critical wildlife habitat across the Custer Gallatin National Forest.

Alternative D creates 39 Recommended Wilderness areas totaling over 711,000 acres, including the Gallatin Range, Lionhead, Crazy Mountains, Bridger Range, Cowboys Heaven, Deer Creeks, Line Creek Plateau, Emigrant Peak, West Fork Rock Creek, Red Lodge Creek, Pryor Mountains, and Tongue River Breaks.
