Comments:

I support alternative D. It has the maximum wilderness protection and a very large amount of timber cutting as well. Although I am a mountain biker, mountain bikes need not go all over those areas as there are plenty of areas they now can use. Same goes for motorized uses. Think of your grandkids as they grow up in the Gallatin Forest region. With the population explosion in our area, for their sake we need maximum protection now. Thanks for all the work you do on behalf of our national forests!
