Comments:

Please protect all existing WSAs (as Wilderness) and resist the flood of increasing expansion of motor uses. Montana is argueably the most pristine of the lower 48 states and these sparse inholdings of quiet-solitude should be stoutly protected against the militant, right wing, open-everything crowd. Beauty, peace and solitude sell and are a big reason for high real estate values and the multibillion dollar tourist industry. Protecting acreage yields big bucks!!

I've spent most of my time in your USFS nat. forest in Absaroka/Beartooth and Pryors (both jewels in the state) catch release a 24" cutthroat headwaters of E. Rosebud!

Bruce Hunner
