Comments:

The Forest Service's plans for the greater Northern Rockies ecosystem and the smaller ecosystems it comprises need to give priority to the survival of species and their habitat, identification and protection of migration corridors, and other conservation measures that favor protection of species and habitat over development and motorized and mechanized recreation.

I am asking the Custer-Gallatin N.F. to manage all of the roadless lands administratively as wilderness in the Custer-Gallatin N.F. that the Northern Rockies Ecosystem Protection Act, S. 827 and H.R. 1321 would designate as wilderness including but not limited to the 230,000 acres of roadless lands in the Gallatin Range.
