Comments:

It is very disappointing to see the forest service proposing wilderness so close to Bozeman. I for one am opposed to more expansion of wilderness that limits recreational opportunities and economic opportunities for business growth. I am in the process of developing a business based off the access to the west side of the Bridger Range and surrounding areas in the Bozeman area. I see wilderness proposed so close to town as an economic disaster in terms of tourist that are bikers spending there money and time in Bozeman. To me everything is wilderness and a dedicated piece of land with that name doesn't make it more wilderness. There is plenty of wilderness and proposed wilderness in Montana already. Keep the access open to bikers. We help maintain trail and advocate for all training users.
