Comments:

The Crazy Mountains were the best place in the memories and experience of my late husband. We have taken his grandchildren there - and through the landscaper that is so special, they have seen and felt their grandfather and his love of this special place.

the Pryors have the only red desert in Montana and holds unique and sacred plant and animal life. Please protect its fragile diversity.

Maintain the WSA in Lionhead and the Absorka and Beartooth area and others we have waited for further legislative protection.

The Wilderness Act allows only foot and horse travel - not mechanized or motor travel of any kind. So very much is out into jeopardy in safety as well as protection of our lands here.
