RE: Adopt Alternative D & restore native species

Dear Forest Plan Revision Team

Please support Forest Supervisor Mary C. Erickson and Regional Forester Leanne M. Marten re: listing American bison as a species of conservation concern in Region 1.

The majority of Americans support scientific information, including habitat connectivity.

I urge Custer Gallatin to develop wildlife safe passages; restore more wetlands, creek banks, pond edges, & riparian habitat; enact strong standards and projects that restore native species diversity.

Sincerely,

Carolyn McCollum
