Comments:

I have lived in Bozeman for 18 years. I mountain bike and hike and float and run. I am concerned that the advent of small electric motors will become invisible in mountain bikes. Some already are. I do not support motorized access in any non-road area of our public land. One person should not be able to utilize more resource than their own power can provide them. Please do not allow Mountain Bikes in sensitive areas. They will be motors with them.
