

*Dear Custer Gallatin National Forest:*

I am an advocate of wilderness. Therefore, as you make your final decision about how to manage the Custer Gallatin National Forest I ask that you keep, maintain and protect the wilderness values in all areas such as the Crazy Mountains.

Also please continue to manage recommended wilderness, such as the Lionhead area as though it were wilderness.

Please expand and protect recommended wilderness around the Absaroka-Beartooth and include Dome Mountain, Chico Peak, Emigrant Peak, West Woodbine, East Rosebud and Red Lodge Creek.

Please recommend new wilderness in the Pryor and implement the Gallatin Forest Partnership Agreement Alternative D.

In your decision-making, I ask that you strive to protect these and all other areas in the Custer Gallatin National Forest that have wilderness characteristics. Please protect them from future road-building, logging, mineral extraction and increased motorized and mechanized use.

Thank you.

Curt Meyer
