Comments:

I would like to urge you to retain the wild character of the Gallatin Natl. Forest as much as possible. As an avid backcountry user I value the wildlands and wildlife of our state. I also ride off road motorcycles and 4-wheelers - but the needs of wildlife should be precedent over more intrusion into our wild lands. I am also an avid river runner - subject to river permits and user limitations off road vehicle users should not have unrestricted uses and be restricted much like river users are subject to. - John Bannon
