Comments:

I am in support of Alternative C. My reasoning for Alternative C is that it strikes a compromise between my own personal values of wildlife protection, seeing the maximum amount of designated Wilderness, and of being able to utilize the Forest in mechanized and non-mechanized travel. I am one of the conflicted individuals who recreate on the Custer Gallatin with a snowmobile, on cross-country skis, with alpine touring skis, with a mountain bike and on foot. I also recognize the importance of protecting wild land habitats for ecosystem integrity and connectivity. Because of my contrasting values, Alternative C is my comprise of choice.
