To Whom It May Concern:

I am writing to persuade you to select Alternative D of the draft plan for the Custer Galletin National Forest because it preserves the largest area of wilderness designation and it protects the most roadless area. Thus, you preserve intact this space for our children and grandchildren, who will not ever have access to it in its pristine form without your foresight and moral courage. Only you can do this, because we are not at the table to advocate for it ourselves. In addition, we all know the environmental damage done by many large pack animals at once and large parties of campers. Fifteen is too many at one time; it should be half that to preserve environmental quality.

Thank you very much
