Comments:

The future of wild lands in the Custer Gallatin National Forest is at stake.

Instead of small, around 8, groups of animals being allowed in the Absaroka-Beartooth and Lee Metcalf Wildernesses, it is like, 25.

It doesn't address the issue of human and pack animal feces contamination of lakes and streams on the Beartooth Plateau in the Absaroka-Beartooth Wilderness.

I support the wilderness recommendations in Alternative D of the Revised Draft Forest Plan; however, they must be improved by adding the entire 230,000 wild, roadless acres of the Gallatin Range as Recommend Wilderness in the final forest plan.

The plan should prohibit all motorized and mechanized uses.
