Comments:

In any reorganization/redistribution plan I think that the following should be followed without exception:

1. Comprehensive coordination with Indigenous Tribes
2. Increased protection of riparian areas
3. Increased protection of wilderness areas
4. Strict limits on logging and grazing
5. Strict outlines for recreational use
6. Enforcement of all of the above

This is a great opportunity to improve the Forest Service plan but should not be used to gut protections already in place.
