Dear Custer Gallatin Forest Plan Revision Team

The Absaroka Beartooth as well as the Madison, Henry's Lake and Gallatin Geographic areas are some of the most environmentally valuable places in the Forest. The new forest plan must protect them from growing recreational and climate impacts. Please cement our recreational footprint in place through the Gallatin Forest Partnerships recommendations, including ~ 130,00 acres of new wilderness. In addition, protect existing wilderness and recreational hubs by extensively monitoring and managing the growing impacts of recreation and climate change.

In Addition[hellip]

I grew up in the outdoors, I moved to Bozeman for it. It would break my heart if we didn't protect this land. I've watched my hometown be developed into less and less wildlife And while change can be good Bozeman wouldn't be what it is without the land we get to play on! Protect it! Please and Thank you!
