Comments:

I am writing to submit my comments on the Custer Gallatin Forest Plan revision.

Specifically, I would like to advocate for recommended wilderness to connect the Gallatin key linkage area (Nichols/Limestone Cr area) with the recommended wilderness shown in Alt C.

Please preserve as much of the inventoried roadless areas as possible that facilitates wildlife migration between the key linkage area and the crest of the range, without encounters with mechanized travel.

My second comment relates the Porcupine/Buffalo Horn area. Alternative C recommends too little wilderness in this area, and far too much mechanized travel. Please prioritize wildlife and ecological values over recreation.

Thank you for the opportunity to comment.
