Comments:

I favor alternative D of the revised draft forest plan for the following reasons.

#1 Motorized vehicles are surest route to spread trash and unwanted debris in sensitive areas and should never be allowed in any circumstance.

#2 25 head of stock and 15 people are too many and cause too great of an impact. This number should be substantially reduced.

#3 I don't agree with fish stocking fishless lakes and the area should remain in its natural state.
