Comments:

I have lived in Bozeman for 39 years and have experienced what growth and population pressure have done to the areas around Bozeman. And this is likely to continue. I have been going to meetings and workshops regarding the master plan for many years.

My strong feeling is that the entire Gallatin Crest needs to be preserved. It is an exceptional geographic phenomenon with amazing views to each side. And with the wilderness designation, there is a small wildlife corridor available to link the the Bridgers and north all the way to the Park.

More and more people will want more and more access but that would be such a future loss. Please support Plan D for the Hyalite/Buffalo Wilderness.
