Comments:

Please choose Alternative-D. It provides the most protection of critical core habitat, roadless areas, and also creates 230,000 acres of new wilderness. I spend three months per year in MT + WY and own property with another family member, moving permanently next year. The threat to the Grizzly from inside the states has been very upsetting. Wildlife is what sets MT and WY apart from the rest of the US, it's removal through extinction to satisfy hunters for one season is short-sided and will negatively impact local economies. Please do the right and moral thing. Give the bears more areas of protection in the Gallatin forest.
