To Whom It May Concern

Please be advised that I strongly support alternative D of the Revised Draft Forest Plan with the following additions/revisions:

1. Add the Gallatin Forest Range as Recommended Wilderness Area 2. Restrict all motorized and/or mechanized uses in these areas. We have very few true wilderness areas left and they need to be protected to maintain biodiversity. Just like a lawn is not a meadow a "wilderness" subjected to motorized vehicles and machinery isn't one in the eyes of the original inhabitants that we are trying to protect. In the same vein, 3. Concerning the Absaroca-Beartooth and Lee Metcalf Wildernesses group sizes should be restricted to 8 for stock and 12 for people to minimize impact on wildlife.

My grandfather was a forester, so protecting nature is a family tradition for me. Thank you for the opportunity to provide feedback Dorothea Leicher
