Comments:

I support Alternative D to the revised plan, plus including the entire 230k acres of the Gallatin Range as true wilderness, meaning small groups of less than a dozen people, removal of all animal stock and no motorized vehicles of any kind, plus stop stocking lakes that would otherwise have no fish. I have visited the area sometime in the past, on foot, and enjoyed what should be kept as true wilderness. We humans have caused significant reduction of wild places or total destruction in others. It is time to leave the wilderness alone and un-impacted by us as much as possible.
