Forest Supervisor, Mary Erickson  
Custer Gallatin National Forest  
10 E Babcock Ave  
Bozeman, MT 59771

Dear Supervisor Erickson and Forest Plan Revision Team,

The documents that accompany this letter are the comments the Sierra Club collected during the ninety day comment period for the Custer Gallatin forest plan revision. We gathered a total of 11,118 comments in support of the Sierra Club's vision for the Custer Gallatin, 1,331 of which were individualized from the original form letter.

The comments are divided into three documents. The original form letter is the first, accompanied by a second document which has a list of signatures of people who submitted this original form letter. The third pdf contains the letters that were added to and individualized from the original form letter by the sender.

We appreciate the opportunity to comment and understand the hard work that went into this forest plan revision process, and we look forward to seeing the final plan. If you have any questions about these documents please feel free to contact me.

Sincerely,

Sarah Pawlowski
